Required Emergency Exit Sign

- 14CFR 25.811 – Emergency Exit Marking
 - (d) (1) A sign located above the aisle
 - (2) Next to each exit
 - (3) On each obstructing bulkhead or divider
- 14CFR 25.812 – Emergency Lighting
 - (a) (1) Illuminated emergency exit marking and locating signs
 - (b)(1) (i) Red letters 1.5" high on white background, 21 sq in., stroke width between 6 and 7:1 contrast ratio 10:1, 25 ft. Lamberts, internally illuminated w/high to low background contrast < 3:1.

Symbolic Exit Sign

14CFR 21.21- Issue of Type Certificate

(b)(1) the type design and product [must] meet the applicable airworthiness requirements of the Federal Aviation Regulations or... any provisions not complied with [must be] compensated for by factors that provide an equivalent level of safety.

Test Booklet Contents

(6 Booklet Formats)

1. ANSI Z535 Symbols (7)
2. Briefing Card Pictorials (10)
3. 25.811 – Required Exit Sign (1)
4. Symbolic Exit Sign Exemplars (3)

ANSI Z535 Symbols

ANSI Z535 Symbols

- Who do you think these people are?

- What are they doing?

Response Categories & Weights

Category	Response Type	Weight
0	No response	
1	Don't Know	
2	Opposite to the intended meaning	- 1.00
3	Wrong	0.00
4	Related but understanding is doubtful / suspect	0.25
5	Related but understanding is arguable	0.50
6	Understanding is likely	0.75
7	Understanding is certain	1.00

Comprehension Score Algorithm

(Modified ISO 9186 Convention)

Category	Frequency	Usable %	Weight	Comprehension
0	8	0.0%		
1	11	3.1%		
2	6	1.7%	*-1.0	-1.7%
3	47	13.2%	0.0	0.0%
4	47	13.2%	*.25	3.3%
5	97	27.2%	*.50	13.6%
6	14	3.9%	*.75	2.9%
7	134	37.6%	*1.0	37.6%
		Total Comprehension Score		55.8%
Usable N=	356			

Non-Contextual Symbols

A red, bold, sans-serif word "EXIT" is centered on a white rectangular background. The white background is itself centered on a larger blue background.

- Describe exactly what you think this symbol means.

EXIT

Exit Here

Comprehension Score = 96.9%

N=537

- Describe exactly what you think this symbol means.

Exit Straight Ahead

Comprehension Score = 43.3%

N=351

- Describe exactly what you think this symbol means.

Exit Here

Comprehension Score = 50.4%

N=359

- Describe exactly what you think this symbol means.

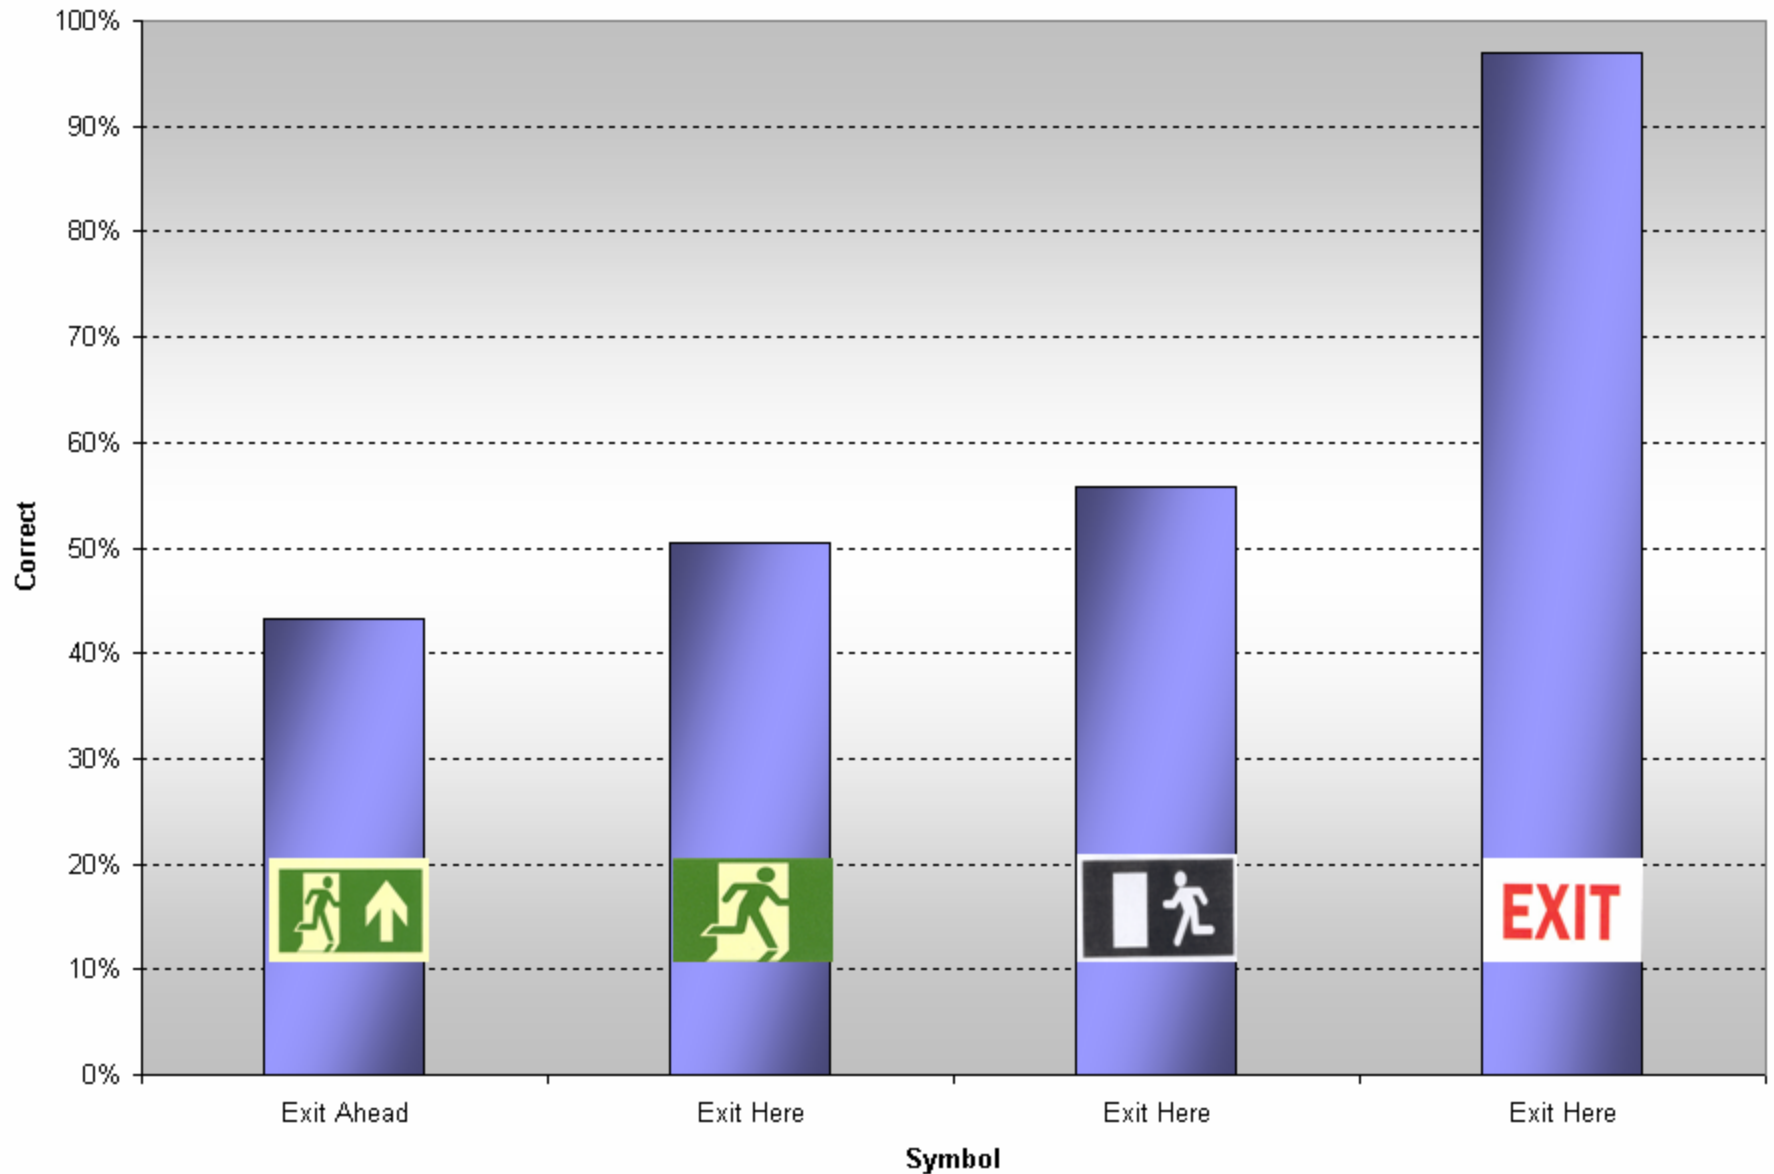

Exit Here

Comprehension Score = 55.8%

N=364

Comparison of Comprehension Scores

Contextual Symbols

- Describe exactly what you think this symbol means.

Exit Straight Ahead

Comprehension Score = 63.7%

Exit Straight Ahead

emergency exit that way (straight ahead)

(7) Certain

this is an emergency escape

(6) Likely

shows where the closest exit is to where you are sitting

(5) Arguable

proceed in this direction

(4) Suspect

The floor between the compartments is not level and requires a step up.

(3) Wrong

- Describe exactly what you think this symbol means.

Exit Both Sides

Comprehension Score = 71.8%

Exit Both Sides

emergency exits either side

(7)
Certain

which directions you can go

(6) Likely

you can walk either way

(4)
Suspect

Caution when approaching ...people may be moving back and forth and crossing in that area.

(3) Wrong

- Describe exactly what you think this symbol means.

Exit Here

Comprehension Score = 74.9%

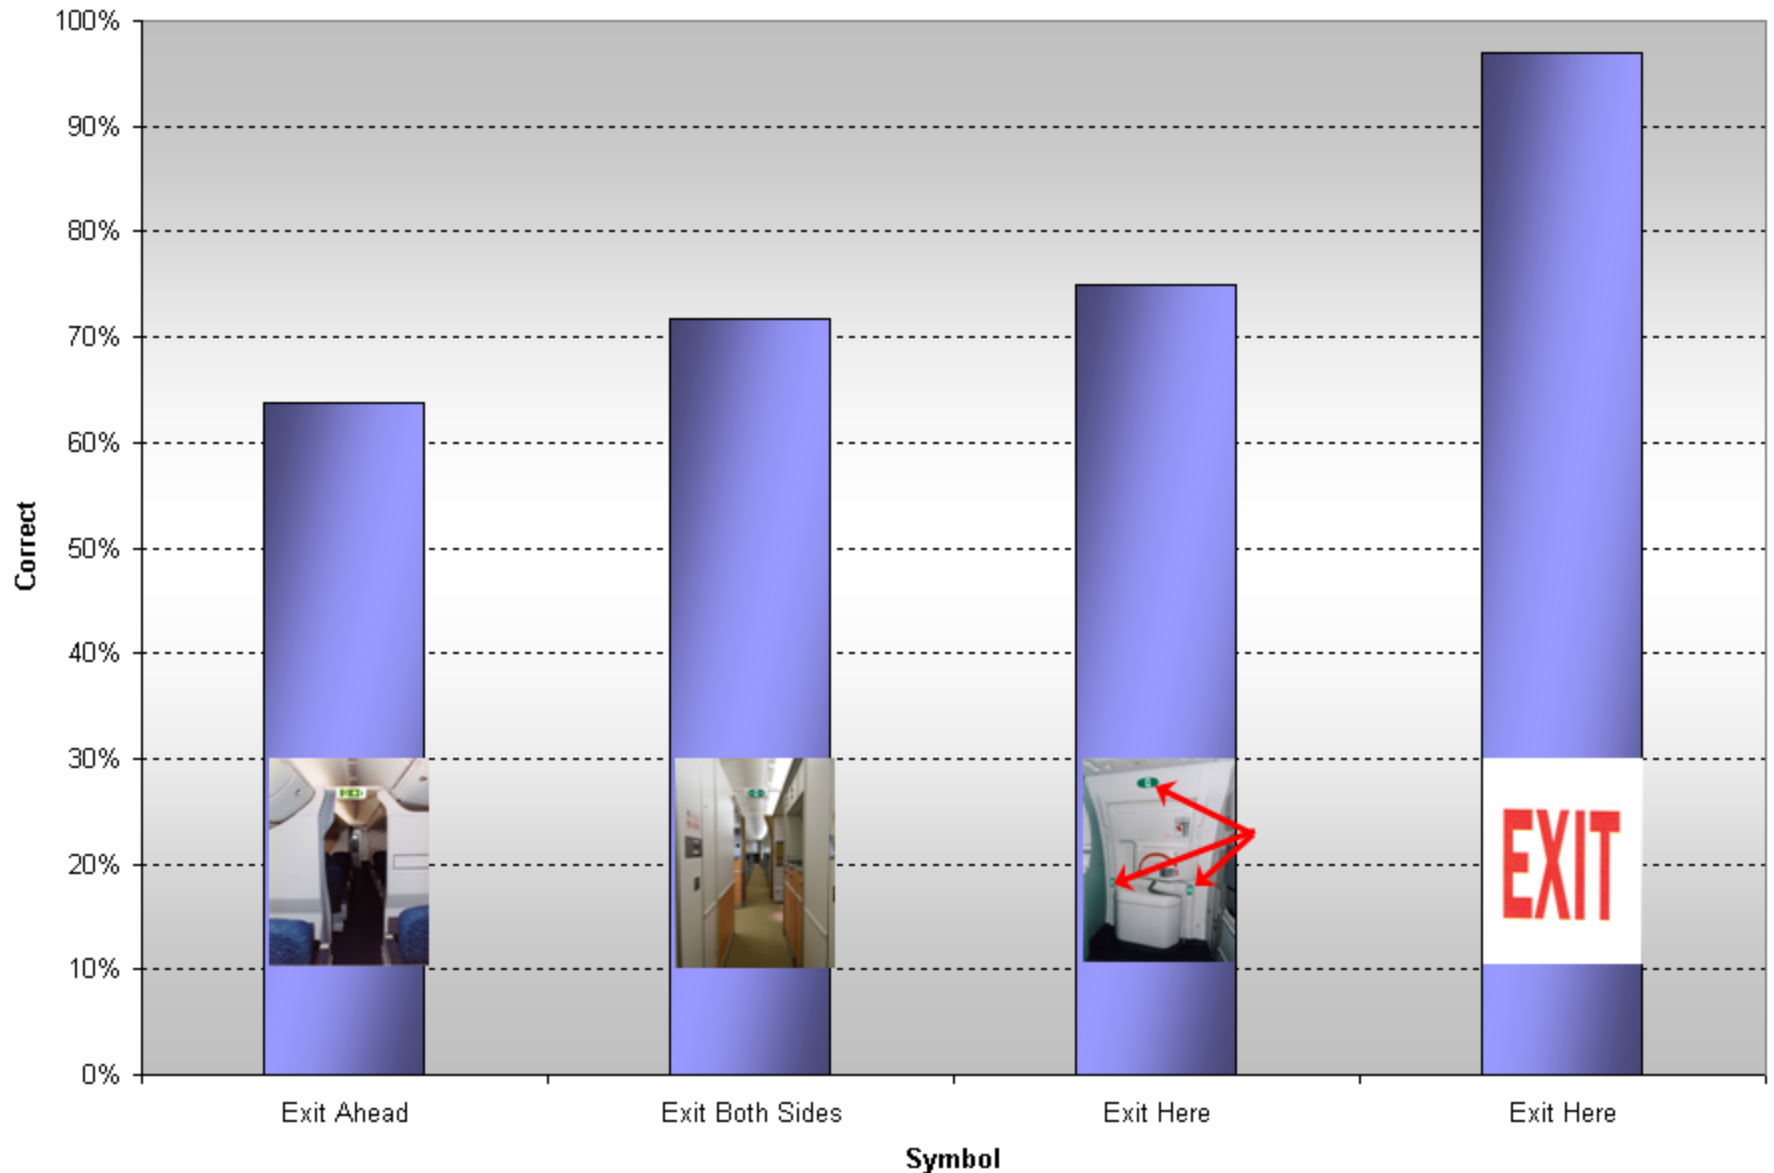

Exit Here

that's the get out door	(7) Certain
exit possibility	(6) Likely
exit is clear and free from debris. Safe to use exit since the green is indicated	(5) Arguable
go one at a time through door	(4) Suspect
no running in this area	(3) Wrong
do not leave the plane	(2) Opposite

Comparison of Comprehension Scores

Context-Based Conclusions

- Traditional Part 25.811 / .812 **EXIT** Sign Universally Understood
- Symbolic Signs Without Context Had Mean Comprehension of About 50%
- Addition of Contextual Cues Improved Mean Comprehension to About 70%
- Symbolic Signs Were Shown NOT to be Equivalent to Traditional **EXIT** Sign
- Additional Compensating Factors Would be Required to Establish an Equivalent Level of Safety

Demographics-Based Conclusions

- Inter-Correlations Existed Among All Demographic Variables
- Symbolic Exit Sign Comprehension Scores Were Positively Associated with All Demographic Variables, Particularly with Cabin Safety Expertise
- Increasing Age, Education, and (Especially) Flight History Produced Apparent Increases in “Cabin Safety Expertise”
- Trained Cabin Safety Experts Generally Showed Greater Comprehension of Symbolic Signs

Demographics-Based Conclusions

- The Results Indicate That the Cabin Safety Expertise Effects are Based on “Familiarity” with the Cabin Interior Environment
- The Results Also Suggest That Improvements in Comprehension Related to Context Are Explained by That Increased Familiarity
- Selection of Compensating Factors to Establish an Equivalent Level of Safety to the Traditional **EXIT** Sign Should be Based on the Degree to Which Such Factors Can Improve the Familiarity of Symbolic Exit Signs
- Such Factors Would Include Special Briefings, Training, and Repeated Exposure, Especially in Multiple Contexts

SeaTac Transit Station
