Biographical Information :

Alfons Stachel is an engineer for aerospace technologies who started his career as an aircraft structural design engineer in 1990 at Dornier and Grob. Alfons entered Recaro in 1994 and today is Director of the Division for Product Certification at Recaro Aircraft Seating GmbH & Co KG. In this position since 2006, Alfons manages the departments of Stress, Crash Simulation, Weight, Testing and Certification.

His extra official task and passion is to assist in development and introduction of new materials and production methods for seat structure.
