

Yaw Agyei

Yaw Agyei is an Engineering Manager serving the Interiors and Flammability Labs groups of Boeing Research and Technologies in Seattle, WA, USA. Yaw has over 13 years of experience in airplane interior materials and flammability testing. Yaw is also a Test Witness Only Engineering unit member delegated by Boeing Regulatory Administration to witness flammability certification testing.

Yaw has been a member of the International Aircraft Materials Fire Test Forum for about 10 years. He is currently co-leading the development of the next generation Heat Release Rate 2 test method and providing contributions to other next generation test method projects. Yaw holds a BS in Chemistry from Western Washington University (Bellingham, WA), a masters in Aeronautical Science from Embry Riddle University (Daytona beach, FL), and an MBA/MSF from Northeastern University (Boston, MA).
