

Dr. Jaime Grunlan

Dr. Jaime Grunlan is the Leland T. Jordan '29 Chair of Mechanical Engineering at Texas A&M University, where he has worked for ~ 18 years. He holds joint appointments in the Department of Materials Science and Engineering and the Department of Chemistry. He is a world leader in environmentally-benign, flame retardant nanocoatings. He holds 14 issued U.S. patents and several EU patents and he has published more than 200 journal papers. Dr. Grunlan has graduated 27 PhD students and has mentored more than 60 undergraduate students in his research laboratory. In 2018, Prof. Grunlan became a Fellow of the American Society of Mechanical Engineers (ASME) and was awarded a *doctorate honoris causa* (i.e. honorary doctorate) from the University of South Brittany (Lorient, France). In 2019, he became a Senior Member of the National Academy of Inventors (NAI).
