

OLIVIA MCAVOY

Olivia McAvoy is a Test Engineer at Resonate Testing Ltd, located in South Armagh, Northern Ireland. Resonate Testing is a test facilitator and consists of mechanical, vibration, shock, environmental, fire and flammability testing.

Olivia has a Masters degree in Aerospace Engineering from The Queens University Belfast. Having graduated in July 2020 (in the middle of the Covid-19 pandemic), Olivia's career as a Graduate Engineer started at Resonate Testing.

Since the start of her career, she has largely focused on leading and delivering fire tests to many of Resonate Testing clients. In between fire tests, she has also performed vibration and shock tests also. Olivia is dedicated to learning and developing her engineering knowledge and career at Resonate Testing.

Olivia's personal interests include playing Gaelic football, travelling, baking and drinking gin!
