

Dr. Sodano is the President of Trimer Technologies, LLC which develops high performance polymers to enable very low cycle time manufacturing. He received his Ph.D. in Mechanical Engineering from Virginia Tech in 2005, his M.S. in 2003 and his B.S. in 2002 also from Virginia Tech. He is a Professor in the Aerospace Engineering Department at the University of Michigan with appointments in Macromolecular Science and Engineering and Materials Science and Engineering. He has published 276 technical articles (5 book chapters, 146 refereed journals published or submitted and 125 proceedings) with his work being cited more than 18,000 times. He is a Fellow of ASME and SPIE and an Associate Fellow of AIAA.
