During the pandemic, the forum meetings were held virtually with a surprisingly high degree of participation. In order to maximize participation and minimize travel and venue costs, we have decided to combine the forum meetings and offer virtual discussion where appropriate. In addition, we are structuring the meeting based on our internal Research Project Areas (RPAs). The RPAs include Cabin Safety, Hazardous Materials Safety, Cargo Compartment Fire Suppression, and Engine/Powerplant Fire Protection.		
15:45-16:00	ICCAIA CCHRAG - A. Freiling (Airbus)								
16:00-16:15	CFD Modeling of Agent Concentration in an Empty MPS Test Chamber - T. Wu (Boeing)								
16:15-16:30	Smoke Detection Standardization/RFID - M. Karp (FAA)								
16:30-17:10	Cargo Compartment Multiple Fuel Fire - G. McEachen/N. Olson (Boeing)								

Cargo MPS Task Group Meeting (AIRBUS MR)
