

Aircraft Ducting

Pat Cahill

Engineer, Fire Safety Team
FAA Wm. J. Hughes Technical Center
Atlantic City International Airport, NJ 08405

**Federal Aviation
Administration**

Aircraft Ducting

- To review, the following slides contain pictures of duct materials that were tested in the Radiant Panel at the FAA Technical Center in 2011.
- The manufacturer of these materials requested that they not be identified.

- The majority of these samples passed.
- More cooperation from task group members would be greatly appreciated.
 - Round Robins?
 - Individual labs?
- Since the last meeting, a manufacturer has expressed interest in providing samples for a Round Robin.
- A Round Robin is currently in the planning stages and will be discussed in the working group.
