Status of Report

• Compilation of all chapters into one document was completed and reviewed by chapter leads.

• Compilation of chapter leads’ comments and changes to the merged document is in progress.

• The merged document was also posted on the internet to give manufacturers the opportunity to review the descriptions and discussions of their products.

• All contact information for manufacturers of products is current.

• The draft report will be submitted for internal FAA review in May.
Chapter 1: Introduction: Changes

- Keep the overview of fire protection
- Keep the environmental overview, but
  - Clarify regulatory requirements for hand extinguishers
  - Clarify that worldwide production ended.
- Keep toxicological overview
- Keep options, but
  - Remove the dates of proposed rulemaking and references.
Chapter 2- 4

• Separate presentations for each chapter/section.
