Date: 11/16/2011 – 11/17/2011

Federal Aviation
Administration

Database migration from England to USA

Migration Details

- New URL (www.fire.tc.faa.gov/ADB*)
- Old URL will forward to New URL for specific time*
- Accident data will continue to be updated by industry experts
- All usernames, passwords, and access permissions will remain the same
- Custom lists and saved searches will carry over
- With the exception of FAA branding, the layout will remain largely unchanged
- Upgraded version of the database will include PDF user manual

* Subject to change
