

Halon Replacement Dates

	New Aircraft Production		New Aircraft TC		Existing Aircraft	
	ICAO	EASA	ICAO	EASA	ICAO	EASA
Lavatory	2012	2021	2012	2012	None	2021
Handheld (Portable)	2017	2025	2015	2015	None	2025
Engine/APU	None	2041	2015	2015	None	2041
Cargo	None	2041	None	2019	None	2041

The following should be noted: EASA has retrofit dates as the EU has use restrictions on Halon. However they have no dates for new production (therefore new production is the same as retrofit). New type design dates are the same, except the add one for cargo in 2019. (This date is the date of application for type design. aircraft produced is probably 4 to 5 years later).
